

Intel Malaysia Energy Policy

Polisi Tenaga Intel Malaysia

- We are committed to providing a framework for setting and reviewing our energy objectives and targets.
- We are committed to ensuring the availability of information and resources required to achieve our energy objectives and targets.
- We comply with all applicable regulatory and Intel energy requirements.
- We are committed to continuously improving our energy management system and performance.
- We are committed to designing and manufacturing products that are safe and energy-efficient with minimal impact to the environment.
- We support investment in renewable energy, and energy-efficient products and services to improve energy performance.

- Kami komited untuk menyediakan rangka kerja bagi tujuan penetapan dan penilaian objektif dan sasaran tenaga kami.
- Kami komited untuk memastikan ketersediaan maklumat dan sumber yang diperlukan untuk mencapai objektif dan sasaran tenaga kami.
- Kami mematuhi segala perundangan yang berkaitan dan peraturan-peraturan tenaga Intel.
- Kami komited untuk terus memperbaiki sistem dan prestasi pengurusan tenaga kami.
- Kami komited untuk merekabentuk dan menghasilkan produk yang selamat dan cekap tenaga serta mesra alam.
- Kami menyokong pelaburan dalam tenaga boleh diperbaharui serta produk dan perkhidmatan yang cekap tenaga untuk meningkatkan prestasi tenaga kami.

AK Chong,
Vice President of Manufacturing Supply Chain and Operations,
General Manager of Intel Malaysia.

Policy established 2014, last revised Oct. 2019
